Operation Take Back New Jersey

(Properly Dispose of Old Medications)

Somewhere in the United States, a juvenile is taking their first prescription painkiller that wasn't prescribed to them. And you might be surprised to discover there are two places they get these prescription strength painkillers: their own medicine cabinets or the medicine cabinets of their friends.

Operation Take Back New Jersey will afford Gloucester Township residents the opportunity to rid their homes of their unused, unwanted, and expired medicine.

Residents may drop off their unused or expired medications for disposal at the Gloucester Township Seniors Center next to the Gloucester Township Municipal Building on Chews Landing Road on September 25, 2010 between 10 AM – 2 PM. Gloucester Township Police Officers will dispose of the controlled substances in a safe and non – hazardous manner, preventing these pills from falling into the hands of juveniles or into the illicit market in our communities.
